

SolarTech Power Solutions

Industrial frequency inverter 1kw

Overview

- 1kW power rating, 3000VA peak power, 12V/24V applicable, support 1 hp starter motor, utility output efficiency over 99%. ● Innovative microchip technology, pure sine wave output, utility/DC input flexible adaptation. ● Suitable for off-grid solar systems, it offers a variety of.
- 1kW power rating, 3000VA peak power, 12V/24V applicable, support 1 hp starter motor, utility output efficiency over 99%. ● Innovative microchip technology, pure sine wave output, utility/DC input flexible adaptation. ● Suitable for off-grid solar systems, it offers a variety of.

This is a compact and highly portable power inverter that has an excellent track record in the field of high-frequency inverters. From the 12V DC outlet in your applications e.g., vehicle or boat, or directly from a dedicated 12V DC battery, this inverter can efficiently and reliably power a wide.

This is a compact and highly portable power inverter that has an excellent track record in the field of high-frequency inverters. From the 12V DC outlet in your applications e.g., vehicle or boat, or directly from a dedicated 12V DC battery, this inverter can efficiently and reliably power a wide.

This is a compact and highly portable power inverter that has an excellent track record in the field of high-frequency inverters. From the 12V DC outlet in your applications e.g., vehicle or boat, or directly from a dedicated 12V DC battery, this inverter can efficiently and reliably power a wide.

The Power Frequency Inverter is a robust and reliable power conversion device designed for industrial machinery, solar systems, and emergency backup. With pure sine wave output, high surge capacity, and transformer isolation, it ensures stable and efficient power for heavy-duty applications.

High Reliability: Line-frequency transformer design offers strong impact resistance and long service life. **Suitable for Inductive Loads:** Stable operation with inductive equipment like motors and compressors. **Low Electromagnetic Interference (EMI):** Smooth line-frequency output waveform ensures.

- 1kW power rating, 3000VA peak power, 12V/24V applicable, support 1 hp starter motor, utility output efficiency over 99%.
- Innovative microchip technology, pure sine wave output, utility/DC input flexible adaptation.
- Suitable for off-grid solar systems, it offers a variety of utility input.
