Iran s solar power plant

Overview

Iran is taking a significant step forward in renewable energy with an ambitious plan to develop 15GW of new solar capacity by 2030. This initiative which is centered around solar photovoltaic (PV) power stations marks a major shift in the country's energy strategy.

Iran is taking a significant step forward in renewable energy with an ambitious plan to develop 15GW of new solar capacity by 2030. This initiative which is centered around solar photovoltaic (PV) power stations marks a major shift in the country's energy strategy.

The recent opening of Iran's largest solar power plant, Aftab Sharq, in central Isfahan province, marks a significant milestone in the country's pursuit of self-sufficient renewable energy technology. President Masoud Pezeshkian officially inaugurated the 120 MW Aftab Sharq facility in the presence.

Iran has opened the first phase of its largest solar power plant as part of a massive government program to expand renewables capacity in the country. Tehran - ISNA - Iranian President Masoud Pezeshkian used a video link on Thursday to open a 120 megawatt (MW) unit of the Aftab Shargh solar farm in.

TEHRAN - Iran installed approximately 600 megawatts (MW) of solar power capacity in the past Iranian year (ending March 2025), marking a fourfold increase over the previous annual average of 150 MW, according to Alireza Parandeh Motlaq, deputy head of the Renewable Energy and Energy Efficiency.

Iran is taking a significant step forward in renewable energy with an ambitious plan to develop 15GW of new solar capacity by 2030. This initiative which is centered around solar photovoltaic (PV) power stations marks a major shift in the country's energy strategy. Iran's Vice-President Mohammad.

Iran's largest solar power plant was officially inaugurated in Kuhpayeh, Isfahan, during an online ceremony attended by President Massoud Pezeshkian and senior officials on Thursday. The project, led by Mobarakeh

Steel Company, aims to eventually generate 600 megawatts of solar electricity, with.

Iranian President Masoud Pezeshkian inaugurates via video conference the country's biggest solar power plant in Kuhpayeh, Isfahan Province, central Iran, on July 10, 2025. President Masoud Pezeshkian has inaugurated Iran's largest solar power plant with a capacity of 120 megawatts (MW). Pezeshkian.
