

## SolarTech Power Solutions

# Iranian power generation container manufacturer

## Overview

---

Who is MAPNA Generator Engineering & Manufacturing Company?

Address: No. 231, Mirdamad Blvd. Tehran, Iran MAPNA Generator Engineering and Manufacturing Company (PARS) was established in 1998 with the objective of transferring technology of construction and manufacturing thermal power plant generators (up to 160 MW), water plant generators (up to 250 MWs), and power plant bus-ducts.

Who is MAPNA power plant project management company?

MAPNA's journey began in August 1993 under the title "Iran Power Plant Projects Management Company", initially serving as a general contractor for power plant projects under turnkey schemes. Over time, MAPNA evolved from a sole contractor in the 1990s and licensed producer in the 2000s to a technology owner in the 2010s.

Why is MAPNA a key player in Iran's oil industry?

In 2018, the company became one of the first Iranian contractors to qualify for oil exploration and development. It secured an agreement with the Oil Ministry to develop and operate Danan, Parsi, and Paranj oilfields in Iran's Khuzestan Province. In the rail transportation market, MAPNA has emerged as a key player.
