

## **SolarTech Power Solutions**

# **Island Station solar Panels**

## Overview

---

Why should you install solar panels in Long Island?

It's the price of electricity. We can't fix the high taxes or the traffic on Long Island, but we can make your electricity more affordable. Solar panel installation at your home in Long Island will give you independence where you take less from the grid and save more every month.

Why is solar a good option for Long Island power solutions?

Solar is efficient, without any of the waste that is seen on the grid. Solar is more reliable, especially with a battery backup system. Solar is more affordable, with significant savings even when financing a system. Every Long Island Power Solutions solar installation comes with a 25 Year Warranty! Solar works year-round.

Why should you choose Long Island power solutions?

Reduce or in some cases eliminate your monthly electric bill with Long Island Power Solutions. We offer residential solar installation with flexible financing and no money down. Use your expected tax credits to enjoy an initial interest-free period before the regular term loan. Solar at home gives the reliability and affordability that you demand.

Does sunation install solar panels & battery storage systems?

Since 2003, SUNation has installed over 8,000 solar panel and battery storage systems across Suffolk County, Nassau County, Queens, Brooklyn, and Staten Island. We take immense pride in being the trusted choice for solar panels and home battery storage systems!.

Why should you choose a solar panel installation service?

More than 5,000 homes throughout Long Island and New York City have become energy independent with our solar panel installation services. The benefits of solar more than make up for the initial investment. Solar is cleaner,

helping to offset your carbon footprint and protect our environment.

Are solar panels cost-effective in New York?

New York is one of the best states for solar in the U.S. It could be incredibly cost-effective if you team up with a Long Island solar company like Sunrun, thanks to the plummeting costs of rooftop solar panels and energy back-up systems.
