Kosovo outdoor power supply price

Overview

Recent pricing trends show standard industrial systems (1-2MWh) starting at \$330,000 and large-scale systems (3-6MWh) from \$600,000, with volume discounts available for enterprise orders. What is the New Kosovo power plant?

The New Kosovo power plant is part of the government's plans to reform Kosovo's energy sector. Other plans include closing Kosovo A power station by 2017, rehabilitating Kosovo B power station to meet EU standards, and privatizing the country's electricity distribution system. Plans for New Kosovo also include a lignite coal mine, the Sibovc SW.

How much does electricity cost in Kosovo?

In Kosovo, the price per kilowatt/hour is 6 cents, which is almost five times lower than in Romania, where 1 kilowatt/hour costs 29 cents. According to the Statistics Office of the European Commission (Eurostat), Kosovo convincingly had the cheapest electricity prices in Europe for the year 2022, when the last annual measurements were made.

Could solar power be used in Kosovo?

Different sources estimate different potential for solar and wind in Kosovo. These could be combined with Albania's existing hydropower to make a much more flexible electricity system, and in December 2019, the two countries agreed to set up a common electricity market.

How much power does Kosovo have?

Energy Infrastructure Today, Kosovo's electricity operating capacity is about 900 MW, almost all of which comes from two antiquated coal-fired power plants, Kosovo A and Kosovo B. As the population grows, ongoing constraints on power will continue to increase.

Is North Macedonia more expensive than Kosovo?

North Macedonia is even more expensive, marking a price of 10 cents per

kilowatt/hour, which is nearly 70 percent more expensive than Kosovo. Only medium-sized consumers with an annual consumption of 2500 kWh to 4999 kWh are included in these measurements. All EU countries have prices at least twice as high as Kosovo.

Which countries are more expensive than Kosovo?

Albania, Bosnia and Herzegovina, and Montenegro have prices from 8 cents per kilowatt/hour or more than 35 percent more expensive than in Kosovo. North Macedonia is even more expensive, marking a price of 10 cents per kilowatt/hour, which is nearly 70 percent more expensive than Kosovo.
