## Overview

---

What kind of batteries are available for medical devices?

You are here: Home 1 / Uncategorized 2 / HIMAX – Premium LiFePO4 & Lithium-Ion Batteries for Medical Devic. At HIMAX ELECTRONICS, we are a leading lithium-ion battery manufacturer, specializing in high-performance LiPo batteries, LiFePO4 (lithium iron phosphate) batteries, and custom battery solutions for medical devices.

What is lithium ion battery?

Lithium ion battery of medical equipment produced by Large Power has complete safely protective circuit, equalization circuit and battery management unit (BMU). Lithium ion cells are connected in parallel and series strictly so that the battery pack has high consistency.

Why do medical devices need a battery pack?

Devices such as; defibrillators, surgical instruments and portable diagnostic equipment all rely on battery packs made to ISO 13485 standards to guarantee safety and effectiveness. Partner with Alexander Battery Technologies for reliable, custom battery solutions that meet the unique needs of your medical equipment or device.

Are LiFePO4 batteries the future of medical power solutions?

LiFePO4 batteries offer a cleaner, more efficient, and longer-lasting alternative, making them the future of medical power solutions. At HIMAX ELECTRONICS, we are committed to innovative, safe, and high-performance battery solutions for medical applications.

What is battery-powered hospital equipment?

Battery-powered hospital equipment encompasses a wide range of devices crucial for patient care and medical procedures. These devices rely on the reliability and safety of battery systems to ensure uninterrupted operation,

especially in critical situations.

What is a battery for a lifter & mobility device?

Our batteries for lifters and mobility devices are designed to provide ample power and endurance, ensuring smooth and safe operation for patients and caregivers alike. Respiratory Care devices, such as ventilators and CPAP machines, rely on portable power sources to deliver life-saving therapy to patients with respiratory conditions.
