# Latvian new energy solar module prices

## Overview

---

The company recorded price reductions of around 4%, with only low-cost photovoltaic modules escaping the trend. Specifically, in August 2025, the Price Index showed: about €0.055/Wp for low-cost photovoltaic modules, unchanged from July prices.

The company recorded price reductions of around 4%, with only low-cost photovoltaic modules escaping the trend. Specifically, in August 2025, the Price Index showed: about €0.055/Wp for low-cost photovoltaic modules, unchanged from July prices.

The updated guide to photovoltaic module prices shows the latest costs of solar panels across Europe. In August, high-efficiency modules dropped to €0.12 per watt, marking an all-time low for the sector. Prices for photovoltaic modules in 2024 continue to fall. According to the monthly index.

Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate between the main technologies available on the market. Since 2009, pvXchange has provided a unique price index for the European market, which has become an invaluable.

Trina Solar līdz šim ir labojusi 21 pasaules rekordu par saules paneļu efektivitāti un moduļu jaudu. Nepārspējamais inovāciju līmenis ir padarījis Trina solar par pasaules līderiem, nosakot nozares kritērijus gan kvalitātei, gan efektivitātei. Līdz 2020. gada decembrim Trina Solar piegādāja vairāk.

Solar module prices reached a new low this week, says Leen van Bellen, business development manager Europe for Search4Solar, a European purchasing and selling platform for solar products. He tells pv magazine that prices will remain low in the short term. Search4Solar, a European platform for.

IRENA presents solar photovoltaic module prices for a number of different technologies. Here we use the average yearly price for technologies 'Thin film a-Si/u-Si or Global Price Index (from Q4 2013)'. This data is expressed in US

dollars per watt, adjusted for inflation. IRENA (2025); Nemet.

Average solar panel cost in 2024. The average 5-kilowatt (kW) solar panel system is \$14,210 before considering any financial incentives. However, a typical American How much does it Photovoltaic panels in Sihong, East China's Jiangsu Province Photo: VCG China recorded new highs in output value and. How much does a solar module cost in Europe?

Search4Solar, a European platform for buying and selling solar panels, inverters, and batteries, received a record-low PV module price this week at €0.055 (\$0.058) /W. “ This is the first time the €0.06/W threshold was surpassed,” Leen Van Bellen, business development manager Europe at Search4Solar told pv magazine.

Are solar module prices a new low?

Solar module prices reached a new low this week, says Leen van Bellen, business development manager Europe for Search4Solar, a European purchasing and selling platform for solar products. He tells pv magazine that prices will remain low in the short term.

Are solar module prices at the lowest point in Europe?

Surpassing the €0.06/W threshold may indicate that solar module prices in the European market have hit their lowest point. “ This is the bottom in the EU,” Van Bellen said. “The next step could be shipping back the products to China or selling them in Africa.”.

How has the price of solar panels changed in Europe?

Chart: sun.store The price of solar panels in Europe has declined for a sixth month in a row, according to the latest pv.index report. Released by solar wholesaler sun.store, the pv.index report for October showed the biggest price decline in n-type monofacial modules, with a 15% drop from September to an average of €0.098/Wp (US\$0.107/Wp).

How much does a tunnel oxide passivated contact solar module cost?

According to the most recent update from OPIS, tunnel oxide passivated contact (TOPCon) solar module prices ranged from a low of €0.080/W to a high of €0.120/W last week, with the average price being €0.101/W. This content is protected by copyright and may not be reused.
