Overview

Can a radio station be used in Libya?

A radio station may not be owned or used on the land, sea, air, or space territory of the Libyan state or on a ship or aircraft and the like registered therein unless a license for such is obtained in accordance with this Law. Radio stations may not be imported except by written approval of the competent body. Part (4) Interconnection Article (7).

Which telecommunications terminal equipment is subject to type approval?

radio equipment makes efficient use of the radio spectrum. Accordingly, all telecommunications terminal equipment which directly connect to a public telecommunications network and all intentional emitters of electromagnetic radiation (radio waves) shall be subject to the Type Approval Regulation issued by the TRA.

What is type approval regulation for telecommunications equipment?

According to the Telecommunications Law (Law 431 / 2002), the TRA is legally mandated to develop and implement a Type Approval Regulation for telecommunications equipment. The purpose of the Type Approval regime is to ensure that the telecommunications equipment: radio equipment makes efficient use of the radio spectrum.

Will Libya become an international transit centre in Africa?

Regarding the strategy and its details, Al-Baour said that it was signed within the framework of the Communications Authority's vision aimed at creating a sustainable and secure digital sector for a knowledge-connected society capable of transforming Libya into an international transit centre across Africa.
