# Lithium battery energy storage container export

## Overview

---

This article provides a detailed interpretation of UN3536 regulations concerning the sea freight export of lithium battery energy storage containers. Are lithium batteries shipped in a container?

There are three packaging categories for lithium batteries if they are being shipped in a container. When shipping lithium batteries, it is crucial to check the rules and regulations ahead of transportation, or work with an experienced shipping partner to ensure that your cargo is shipped following best practices.

How many lithium batteries can be shipped?

Only a maximum of four can be sent, with two per container, and each battery must have a rating of below 100 watts per hour. It is essential to note that some countries have their own regulations and restrictions for shipping lithium batteries, so it is crucial to check with the destination country's customs authorities before shipping.

Why is shipping lithium-ion batteries important?

From smartphones, tablets, drones, and remote controls to powering electric vehicles, shipping lithium-ion batteries is becoming more and more important. As lithium batteries are classed as dangerous goods, their transportation needs to be well monitored to ensure safety and minimize potential risks during transportation.

What are the shipping requirements for lithium batteries?

Some general shipping requirements to transport lithium batteries internationally include: Lithium batteries weighing over 35kg must be approved by the national authority of the shipping and destination country before shipment. Defective or damaged lithium batteries must not be transported.

Are lithium-ion batteries transforming the maritime industry?

The maritime industry is witnessing a significant shift in cargo composition, with lithium-ion batteries and their applications (EVs, BESS) becoming increasingly prevalent.

How do you ship lithium ion batteries?

Goods must be labelled as “Lithium Ion Battery” or “Lithium Metal Battery” and include appropriate shipping marks and hazard labels. Lithium batteries must have the correct documentation – including a Dangerous goods declaration, air waybill, and packing list. Can you Ship Lithium-ion Batteries Internationally?
