# Lithium battery pack shipment

PUSUNG-R (Fit for 19 inch cabinet)

## Overview

---

Yes, you can ship lithium-ion batteries, but you must follow specific rules. Drain the battery to under 30%. Use the original packaging. Check your carrier, like UPS, USPS, or FedEx, for their requirements. Each package can contain up to 3 batteries, each not exceeding 5,263 mAh.

Yes, you can ship lithium-ion batteries, but you must follow specific rules. Drain the battery to under 30%. Use the original packaging. Check your carrier, like UPS, USPS, or FedEx, for their requirements. Each package can contain up to 3 batteries, each not exceeding 5,263 mAh.

To assist shippers in understanding the requirements related to the transport of lithium batteries following the regulations, PHMSA/DOT (49 CFR) and IATA have prepared the following publications that refers to regulatory requirements for a specific lithium cell/battery type, configuration, and/or.

Charged battery shipments or shipments with items that contain charged batteries may overheat and ignite in certain conditions and, once ignited, may be difficult to extinguish or may expend corrosive substances. By following these guidelines and complying with all applicable local, state and.

If your business ships products containing batteries internationally, there are some important shipping and packaging considerations you will need to comply with to ensure they arrive there safely and without damage or delay. Read on for a simple guide. What are the types of batteries?

Batteries.

With so many products using lithium batteries, it's important to understand how to ship them. Learn here how to safely pack and ship lithium batteries. Easyship offers valuable features and benefits for ecommerce store owners, despite not currently shipping lithium batteries. Explore a wide range.

To ship lithium batteries safely, follow regulatory guidelines (IATA, DOT, UN), use non-conductive, crush-proof packaging, separate terminals, apply hazard labels, and include documentation. Non-compliance risks fines, delays, or

combustion. This guide details step-by-step protocols for air/ground.

At DGM we take the packaging of your lithium battery shipment seriously and comply with all the shipping regulations for these items. Our trained staff of professionals will make sure that your shipment is correctly identified and classified, packaged, marked, labeled and accompanied by a Shipper's.
