

SolarTech Power Solutions

Maldives 20kw off-grid inverter company

Overview

What is an off-grid inverter?

Inverters used in off-grid systems serve a crucial role in providing reliable and usable AC power from DC sources, such as batteries and solar panels. Off-grid systems operate independently of the utility grid, making them suitable for locations where the grid connection is not available or practical.

What is hybrid 20kW solar power inverter?

This is Hybrid 20KW Solar Power Inverter, used for all kinds of home application, office equipment, solar power system, and other equipment which use single phase or three phase power. CPU, select high quality components carefully made, stable performance, high reliability. CPU intelligent control, pure sine wave output, easy to use.

What are the applications of inverters in backup power systems?

Some common applications of inverters used in backup power systems include residential backup power, commercial and office buildings, healthcare facilities, data centers and IT infrastructure, industrial applications, telecommunication towers and base stations, emergency response centers, educational institutions, retail outlets, public facilities
