

SolarTech Power Solutions

Malta communication base station battery manufacturer

Overview

Why should Malta invest in battery energy storage systems?

The launch of these tenders marks a crucial step in Malta's journey towards a more sustainable and resilient energy future. By investing in Battery Energy Storage Systems, Malta aims to meet its commitments to a clean energy transition while enhancing the stability and efficiency of its energy supply.

What is interconnect Malta doing?

InterConnect Malta has launched tenders for two large-scale Battery Energy Storage Systems, aiming to enhance renewable energy integration and stabilize Malta's energy supply. Learn more about this significant step towards a sustainable energy future.

What is Malta's Energy & Climate Strategy?

This project is in alignment with Malta's energy and climate strategies, as it emphasises the integration of energy emanating from renewable sources and the mitigation of energy curtailment, thus enhancing energy security and reducing carbon emissions.

Why is offshore wind energy important in Malta?

Dr. Miriam Dalli, the Minister for Energy, emphasized the importance of this project in enhancing the stability of Malta's energy system, particularly during cloudy periods. She noted that such initiatives are essential for advancing large-scale renewable projects, including offshore wind energy.

How does the Bess project affect PV generation in Malta?

The BESS project is also intended to mitigate weather-related challenges posed by renewable energy sources, which are reliant on climatic conditions and can therefore lead to significant dips in generation during moments of sudden cloud coverage severely affecting the PV generation in Malta.

Will Delimara Power Station be co-financed?

Delimara Power Station: Considered for co-financing under the European Regional Development Fund (ERDF) for the 2021-2027 period, with a budget of €35 million and a co-financing rate of 60%. The launch of these tenders marks a crucial step in Malta's journey towards a more sustainable and resilient energy future.
