

**SolarTech Power Solutions**

# **Mauritania Energy Storage Power Plant**

## Overview

---

Featuring an impressive 160 megawatts (MW) of solar power, 60 MW of wind energy, and a robust 370 megawatt-hours (MWh) battery storage, this project is not just a power plant; it's a beacon of sustainable development and energy independence for Mauritania.

Featuring an impressive 160 megawatts (MW) of solar power, 60 MW of wind energy, and a robust 370 megawatt-hours (MWh) battery storage, this project is not just a power plant; it's a beacon of sustainable development and energy independence for Mauritania.

Mauritania is stepping into a brighter future with its recent 0 million Power Purchase Agreement (PPA) with Ewa Green Energy. This ambitious venture will pave the way for a cutting-edge hybrid power plant that promises to revolutionize the country's energy landscape. Featuring an impressive 160.

Mauritania launches a pioneering hybrid solar-wind plant with integrated storage, ensuring reliable power and accelerating universal energy access. Mauritania has initiated a significant energy development by signing public-private partnership agreements for a 220 MW hybrid solar-wind power plant.

Mauritania Launches First Hybrid Solar and Wind Power Plant Worth \$300 Million In a significant step towards energy transition, Mauritania signed a public-private partnership agreement worth \$300 million on Friday, September 12, in Nouakchott to construct a hybrid power plant that combines solar.

IGE, developer of Mauritania's largest renewable energy plant to date, has signed a \$300m deal with Nouakchott. African Energy reports on the groundbreaking deal and its low profile but successful developer. Want to read more?
