

SolarTech Power Solutions

Microinverter No 1 in the world

Overview

Known as a pioneer in producing microinverters, Enphase Energy occupies the first position among the top 9 microinverter manufacturers in the world. Enphase started its innovation journey in 2006. Who makes the best solar microinverter?

Chilicon Power is one of the top 10 micro inverter manufacturers in the world, representing the next era of cutting-edge solar microinverter technology. Based in California, the company's flagship offerings include two microinverter models, a compact gateway, and accessories.

What is micro inverter technology?

With its micro-inverter technology, small string inverter technology and modular power electronic equipment, it has made great achievements in the European and American household markets. Currently, North America accounts for about 70% of the global micro inverter market.

What are the most popular microinverters available in Australia?

Below is our detailed comparison of the most popular microinverters available in the Australian, European, Asian and US markets. Enphase Energy and APsystems are the most well-known microinverter manufacturers, while ZJ Beny, Hoymiles & ZJ Beny recently entered the increasingly competitive market.

What is the global microinverter market size?

Explore our premium consulting services designed to help you gain a competitive edge. The global microinverter market size was valued at USD 4.12 billion in 2024. It is projected to grow from USD 4.78 billion in 2025 to USD 15.40 billion by 2032, exhibiting a CAGR of 18.18% during the forecast period.

Who makes Chilicon micro inverters?

Chilicon Power is a micro inverter manufacturers in California, USA. The company mainly promotes 720W inverters, which is higher than the mainstream US microinverters (about 400W) promoted by Enphase. The main inverter products are micro inverter CP-720, micro inverter CP-250E.

Which micro inverter is better Enphase or Chilicon Power?

The company mainly promotes 720W inverters, which is higher than the mainstream US microinverters (about 400W) promoted by Enphase. The main inverter products are micro inverter CP-720, micro inverter CP-250E. Chilicon Power in top 10 micro inverter manufacturers in the world, represents the next era of cutting-edge solar microinverter technology.
