National Energy Storage Container Outdoor Sites

Overview

Where should energy storage systems be protected?

Rooms and areas containing energy storage systems shall be protected on the system side as follows: 1. In dedicated use buildings, fire-resistance rated assemblies shall be provided between rooms and areas containing energy storage systems and areas in which administrative and support personnel are located.

Where should energy storage systems be located?

Energy storage systems and associated equipment shall be located from the edge of the roof a distance equal to at least the height of the system, equipment, or component but not less than 5 feet (1.5 m). 4.

Where should energy storage system signs be provided?

Approved signs shall be provided on or adjacent to all entry doors to energy storage system rooms or areas, to walk-in energy storage system units located outdoors, on rooftops, or in open parking garages, and on enclosures of energy storage system cabinets.

Are battery energy storage systems permitted in a zoning district?

Tier 1 Battery Energy Storage Systems shall be permitted in all zoning districts, subject to the Uniform Code and the “Battery Energy Storage System Permit,” and exempt from site plan review. 7. Permitting Requirements for Tier 2 Battery Energy Storage Systems.

What is energy storage system?

ENERGY STORAGE SYSTEM. One or more devices, assembled together, capable of storing energy in order to supply electrical energy at a future time, not to include a stand-alone 12- volt car battery or an electric motor vehicle.

4.2 2020 Existing Building Code of New York State Section 306 (Energy Storage Systems) **SECTION 306 ENERGY STORAGE SYSTEMS.**

How far should a mobile energy storage system be from the public?

An approved fence with a locked gate or other approved barrier shall be provided to keep the general public at least 5 feet (1524 mm) from the outer enclosure of a deployed mobile energy storage system. 1206.17.7.6 Smoking. Smoking shall be prohibited within 10 feet (3048 mm) of mobile energy storage systems.
