

SolarTech Power Solutions

New Zealand 30kW solar panel source manufacturer

Resistant to -20°C~55°C high and low temperature.

Overview

Who are the leading manufacturers of solar power?

We've partnered with industry leading manufacturers such as Fronius, REC, Victron, Tesla Powerwall, Phono Solar, BYD, Freedom Won, Shoto, Hopergy, S-5! and Tigo to deliver a wide range of solutions to our clients and to meet the needs of domestic, commercial, industrial, off-grid and utility scale solar power solutions.

What is the payback period of a 30 kW solar system?

What is the payback period of the 30 kW solar system?

A high-quality 30 kW solar power system generates an average of up to 180 kW per day, which depends on the position of the panels, weather and daytime power consumption. This makes it appropriate for households with \$1000+ or more in quarterly energy costs.

Who is trilect solar?

We have helped numerous businesses across the country set up high-quality solar installations. Trilect has emerged as a leading provider of commercial solar solutions in New Zealand, offering businesses reliable and efficient solar systems they can trust. Our commitment to quality and customer satisfaction is unwavering.

How much does solar cost per kWh?

Energy retailers pay between 7c and 17c per kWh for surplus solar, boosting your system's return on investment. 3. Protect against rising prices Grid electricity costs are set to rise, but investing in solar locks in low energy costs for the next 25+ years. 4. Affordable energy storage.

Which brand of solar panels do you recommend?

Our preferred brand is Trina Solar which is Tier 1, and among the largest solar

manufacturers in the industry with a proven track record and a culture of continual technological improvement. In most instances we offer the standard 330W panels but in a commercial setting the larger 440W modules may be more appropriate.

Who are sustainable electricity Association of NZ (seanz)?

We are members of the Sustainable Electricity Association of NZ (SEANZ) and adhere to their strict quality assurance principles. SEANZ is an independent organisation representing organisations who research, manufacture, distribute, design, sell, finance and build Renewable Technologies and Projects in New Zealand and Pacific. Their Mission:

New Zealand 30kW solar panel source manufacturer
