

SolarTech Power Solutions

New energy storage equipment manufacturer in the UAE

Overview

Where are enericap energy storage systems made?

Enericap's energy storage systems are designed, developed and manufactured in the UAE. ROX's collaboration with Enericap will enable an advanced nonchemical supercapacitor-based energy storage to be applied to the ROX vehicle range.

Does enericap have a manufacturing facility in Dubai?

Additionally, Enericap Energy Holding Limited has agreed to acquire an existing manufacturing facility in Dubai Industrial City (DIC), which will be upgraded to 6GWh/year capacity. Enericap has a current global demand of over 30GWH of large-scale battery energy storage systems (BESS).

What is the largest SuperCap energy storage manufacturing facility in the world?

This will be the largest supercap energy storage manufacturing capacity in the world and one of the largest energy storage or battery manufacturing facilities. As part of this collaboration, Enericap Energy Holding Limited, the joint venture, will establish a fully automated 10GWh/year manufacturing facility in Mussafah Industrial Zone, Abu Dhabi.

What is enericap energy storage?

Enericap delivers an energy storage system that increases vehicle range, supports a 6-minute 100% charge, is an environmentally sustainable product using synthetic graphene as the main material in its energy storage system.
