

**SolarTech Power Solutions**

# **Niger New Energy solar Energy Storage Equipment Manufacturer**

## Overview

---

Are there any off-grid solar energy systems in Niger?

Yes, there is considerable experience of off-grid solar energy systems in Niger. These include off-grid PV electrification, water pumping, and solar water heating systems. The main decentralised renewable energy system promoted in Niger for rural electricity is solar PV.

Who invested in solar energy in Niger?

A study on the renewable energy sector in Niger found that more than 90% of the solar PV investment was made by development partners. The country experienced a cumulative solar PV investment amounting to USD 23.89m in 2005-2010.

How can Niger balance its energy mix?

This transformative project, funded by the World Bank through the International Development Association (IDA), will enable Niger to better balance its energy mix, which is currently largely dominated by thermal energy. This initiative is particularly crucial for a country that frequently faces climatic shocks.
