# **North Macedonia factory solar energy storage**

## Overview

---

A new energy law adopted in May 2025 is expected to further accelerate the uptake of battery storage. State-led solar and wind projects, along with investments in grid infrastructure and storage, are now advancing at pace.

A new energy law adopted in May 2025 is expected to further accelerate the uptake of battery storage. State-led solar and wind projects, along with investments in grid infrastructure and storage, are now advancing at pace.

Fortis Energy boosts solar efficiency in North Macedonia with a 62-MW battery system, enhancing grid stability and sustainable energy solutions. Turkish renewables firm Fortis Energy has engaged Pomega Energy Storage Technologies to install a 62-MW/104-MWh battery system at its 80-MWp solar park in.

pv Europe and industry association Solar Macedonia are working to advance the solar future of North Macedonia. With 900 MW of installed capacity, North Macedonia's solar sector is scaling rapidly, while battery storage is gaining momentum. Find out more in our daily focus, 15-18 September. North.

Turkish renewables company Fortis Energy has contracted Pomega Energy Storage Technologies to install a 62-MW/104-MWh battery at the site of a 80-MWp solar park it operates in North Macedonia. Energy storage battery. Photo by Anna Vasileva The deal awarded to the subsidiary of Kontrolmatik.

A city where sudden power outages become as rare as unicorn sightings, and solar panels work overtime even after sunset. That's the promise of the Skopje Energy Storage Project – North Macedonia's answer to the \$33 billion global energy storage industry [1]. Designed for tech-savvy policymakers and.

Turkish company Fortis Energy has announced plans to integrate battery storage capacity at the Oslomej solar power plant, making it the second-largest hybrid power facility in the Western Balkans. Fortis Energy developed North Macedonia's largest solar power plant in 2023, with electricity.

The Oslomej solar park, operated by Fortis Energy, is getting a battery system

of 62 MW in capability. The Turkey-based company hired Pomega for the investment. It would make the second-largest photovoltaic unit in the Western Balkans a hybrid power plant. Fortis Energy completed the biggest solar.
