Norway portable energy storage power supply

Overview

Why did Arva order three MTU energypack battery storage systems?

Arva AS has ordered three mtu EnergyPack battery storage systems to maximize energy utilization and stabilize power supply at Senjahopen and Husøy.

Why is the electricity supply at northern Senja a problem?

The additional load to the overhead power cables that are supplying the communities at northern Senja results in interruptions and short voltage drops, disrupting the electricity supply to the business community and inhabitants on Husøy and Senjahopen.

How will a power system help fishing communities at northern Senja?

The system will in several ways contribute to stabilize power supply to the fishing communities at northern Senja. With strong growth in the fishing industry and increased demand for power in private households, the power grid at Senja faces major challenges in stability and security of electrical supply.
