

## **SolarTech Power Solutions**

# **Norwegian rack-mounted energy storage battery company**

## Overview

---

Beyonder delivers BePowered Battery cells and modules. Due to the qualities of our BePowered Cells, when stacked in a module, they provide a sustainable solution for energy storage to be used in markets such as grid and renewables, maritime, power backup, transportation and charging.

Beyonder delivers BePowered Battery cells and modules. Due to the qualities of our BePowered Cells, when stacked in a module, they provide a sustainable solution for energy storage to be used in markets such as grid and renewables, maritime, power backup, transportation and charging.

Beyonder is an innovative Norwegian Energy Storage-Technology company, focused on high-power batteries for industrial use. We have a clear strategy and ambition to become one of the world's most sustainable high-power battery cell technology company, increasing the use of renewable energy in.

Nordic Batteries designs and manufactures high-power and high-energy battery modules, BMS and BESS products. The company bridges the gap between battery cell manufacturers and system integrators with world-leading robotic technology for automated cell stacking and battery module assembly. Today.

At Nordic Batteries we assemble and manufacture customized battery- and energy storage solutions to drive your business forward. Based on our market and technological expertise we deliver solutions powering the green shift for key industries. High energy battery module produced in Norway from.

Pixii leads the way in delivering innovative Battery Energy Storage Systems (BESS), empowering a secure and sustainable energy future. With headquartered in Norway, we combine decades of expertise in power conversion, modular design, and advanced energy management to address the evolving demands of.

The leading supplier of Energy Storage Systems for maritime, offshore Corvus Energy deploys large-scale energy storage systems (ESS) using advanced lithium-ion battery systems proven economical, safe, and reliable in a range of

challenging maritime and transportation applications. As the leading.

134kWh (250kW) per Cabinet (max 400kW with 3C) Up to 3,000 Cycles (High-Intensity Performance) Located in a region of the Netherlands known for its horticultural heritage, Hans van der Meer Astilbe has built a reputation for. At Ekoda, we are continuously seeking innovative and environmentally.
