When you extend the light string beyond 150ft, this driver module is required.

Can a power strip be used outdoors?

Those with an IPX4 rating are able to endure light rain and splashes of water, which is adequate for using the power strip outdoors under a covered patio or porch. Outdoor power strips with a high IPX6 rating can withstand continued exposure to heavy rain, making them suitable for use in places where there is

no protection from the elements.

Are outdoor power strips waterproof?

Some outdoor power strips also function as surge protectors and have built-in fuses that cut off the flow of current when it exceeds the maximum wattage for a standard 15-amp outlet, which is 1,875 watts. Outdoor power strips designed for continuous outdoor use also have an IPX rating, which designates how water-resistant they are.
