New Rich Energy Industry, founded in 2004 and located in Dongguan city, Guangdong, China, mainly produced micro batteries for flashlights and mini speaker box. Since 2009, our range of lead-acid batteries has expanded to full series. They are widely used in various industries such as Telecom, UPS.

With 21 years of energy storage power production experience, it has always been the most trusted supplier of customers. **What Are You Looking For?**

At present, it has more than 150 workers, with a daily production capacity of 3,000 units, and has a number of patents. Strong research and development.

Power stations are ideal to help you get through a power outage and for off-grid camping. They provide a compelling alternative to a loud and smelly generator. And, unlike gas-generators, power stations don't emit potentially lethal carbon monoxide fumes. When outfitted with optional solar panels.

The Westinghouse iGen160s is a basic little power station capable of keeping your electronics charged during a brief power outage or camping trip. I like that it has a flashlight (perfect for getting set up in the dark when the power is out). This power station is extremely portable, weighing in at.
