

# Outdoor power supply production in Guinea-Bissau

To Strive forward No Energy Waste

-  All in one
-  100~215kWh High-capacity
-  Intelligent Integration

## Overview

---

How sustainable is the electricity sector in Guinea Bissau?

The electricity sector in Guinea Bissau is in the midst of a transformational reform towards a sustainable development characterized by reliable, greener and affordable service delivery.

Does Guinea Bissau have energy infrastructure?

Description: Guinea Bissau has seen some progress in building its energy infrastructure. However, vast areas of Guinea Bissau remain literally in the dark. Rural electrification has reached dozens of communities through the expansion of mini-grids and the projected construction of the national grid.

How much money is needed to achieve universal electricity access in Guinea Bissau?

8. Around US\$ 263 million of public and private funding will be needed to achieve universal electricity access in Guinea Bissau by 2030. To achieve this goal, a combination of grid (70%) and off-grid (30%) solutions will be required to bring 400,000 additional new connections<sup>18</sup>.

Does Guinea-Bissau have electricity?

Guinea-Bissau has one of the lowest electrification rates in Sub-Saharan Africa with only 29 percent<sup>2</sup> of the population -around 53 percent in urban areas- having access to electricity (Figure 1).

How efficient is Guinea-Bissau's electricity sub-sector?

The electricity sub-sector in Guinea-Bissau remains one of the least efficient in West Africa.
