Overview

Can offshore solar photovoltaics deliver cost competitive energy to net zero?

RWE is now exploring the prospects for stand-alone and hybrid offshore solar photovoltaics to offer new ways to deliver cost competitive energy in our journey to Net Zero. RWE has more than 30 years' experience in the construction and operation of solar power plants.

Does SEG solar have expansion plans?

Among overseas manufacturers, SEG Solar, Apollo, and New East Solar all have expansion plans. SEG Solar plans to invest in a 5GW integrated capacity for wafers, cells, and modules in Indonesia, with the first phase of 5GW cells and 3GW modules expected to be completed by Q2 2025.

Should solar panels be reapplied individually?

Developers will need to reapply individually, slowing progress. Thousands of miles away on the other side of the Pacific Ocean, it is a different story. China has laid solar panels across an area the size of Chicago high up on the Tibetan Plateau, where the thin air helps more sunlight get through.
