Palau Home Solar System Franchise

Overview

Are solar panels helping with the cost of electricity in Palau?

“ Solar panels are really helping with the cost of electricity here. Palau Solar is a subsidiary of Utilelligence, created to design, supply and install domestic solar power throughout the archipelago of the islands of Palau. Through a project with the Asian Development Bank, Palau Solar is transforming the islands with renewable energy.

Who is Palau solar?

Palau Solar understands renewable energy. Our parent company, Utilelligence, works exclusively in the field of renewable energy connectivity, helping to power solar, wind and hydrogen power on projects worldwide.

Does Palau solar offer a loan payment plan?

Palau Solar has partnered with the National Development Bank of Palau to offer a low-interest, easy loan payment plan to cover the cost of your solar panels. Don't worry, even with the loan repayment, you'll be saving on your current monthly energy bills. Our team at Palau Solar can have you up and running in no time.

How will Palau solar benefit the world?

Working alongside the islands' grid operator, PPUC, Palau Solar is helping to develop a reverse power flow grid that will benefit not just the residents who are in receipt of the solar panels, but the country as a whole, as it will be able to decrease its reliance on external, carbon-heavy power sources.
