

## SolarTech Power Solutions

# Panama on energy storage systems

## Overview

---

Panama has launched a 500MW tender auction for renewables and energy storage, the first in Central America to include storage. What is the Panama 372kwh outdoor liquid cooling battery energy storage system?

The Panama 372kWh Outdoor Liquid Cooling battery energy storage system (BESS) project demonstrates the successful deployment of cutting-edge energy storage technology in a challenging environment. This installation serves as a model for future projects aiming to enhance energy resilience and sustainability in the region.

Can a liquid cooling battery energy storage system improve energy reliability in Panama?

On October 18, 2024, a 372kWh liquid cooling battery energy storage system (BESS) was successfully installed in Panama. GSL Energy, a China-based manufacturer specializing in energy storage solutions, purchased the system. This project aims to enhance energy reliability and efficiency in Panama's energy grid.

Why did GSL energy buy the energy storage system?

GSL Energy, a China-based manufacturer specializing in energy storage solutions, purchased the system. This project aims to enhance energy reliability and efficiency in Panama's energy grid. - To provide a robust energy storage solution that supports renewable energy integration. - To improve grid stability and reduce peak load demand.
