

SolarTech Power Solutions

Philippines outdoor battery cabinet equipment BESS

Overview

Can battery energy storage systems transform business in the Philippines?

Battery Energy Storage Systems have the potential to transform how commercial and industrial companies in the Philippines manage their energy needs. With benefits ranging from cost reduction to energy supply stability, BESS is a compelling solution. While the initial investment may vary, the long-term advantages are undeniable.

What is Bess & how does it work in the Philippines?

For commercial and industrial companies in the Philippines, BESS provides an opportunity to take control of their energy usage. These systems consist of high-capacity lithium-ion batteries and sophisticated energy management software.

How is Bess transforming the Philippine energy industry?

With the commercial operations of approximately 1,000 MW of BESS facilities across 32 locations in the Philippines, we are now ushering in a new era for the Philippine energy industry through significant improvements in grid reliability and the integration of more renewable power sources to the country's diverse energy mix.

What is C&I outdoor lithium battery storage cabinet system?

It integrates 215kWh LiFePO4 batteries with BMS, high-voltage box, power distribution system, PCS (Power Conversion System), control system, fire protection system, temperature control system, and EMS (Energy Management system) monitoring system. C&I Outdoor Lithium Battery Storage Cabinet System.

How many Bess facilities are there in the Philippines?

We are operating BESS facilities at 32 locations in the Philippines, across the regions of Luzon, Visayas, and Mindanao. Overall, we are putting up

approximately 1,000 MW of BESS facilities, which will help ensure the reliability of the grid, especially in areas that are in most need of power quality solutions.

Why should you choose a Bess facility?

The smart and efficient services of BESS facilities allow for a more robust integration of renewable energy sources such as solar and wind energy to the grid. Our battery energy storage business is one of the ways we show our commitment to sustainable energy, as our BESS facilities also operate with zero emissions.
