

SolarTech Power Solutions

Polish power storage companies

Overview

Detailed info and reviews on 5 top Energy Storage companies and startups in Poland in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more. What happened to energy storage in Poland?

The Energy Regulatory Office said in a report last year on electricity storage in Poland that, as a result of the main power market auctions for 2021-2028 and the supplementary auctions for 2012-2025, contracts for energy storage with a total capacity of 9.5 GW were concluded.

Is energy storage a good investment in Poland?

In Poland, interest in energy storage investment has been evident for some time. Last year's main auction of the power market, with capacity delivery for 2029, further bumped up the capacity of storage projects.

Is Poland a key player in Europe's energy storage sector?

Poland is emerging as a significant player in Europe's energy storage sector. The recent capacity market auctions in December 2024 highlighted a substantial shift towards BESS, with approximately 2.5 GW secured by new generation capacity market units, predominantly Li-ion energy storage projects.

Should US companies offer battery energy storage systems in Poland?

U.S. Commercial Service recommends that U.S. companies offering battery energy storage systems take a hard look at the Polish market because there will be opportunities for U.S. companies to propose their solutions for many years to come. For more information, please contact Commercial Service Poland at office.warsaw@trade.gov.

How does Axpo support energy transition in Poland?

While supporting energy transition in Poland, the Company also develops energy storage facilities and expands its offer with large-scale photovoltaic

projects. Axpo is cooperating with investors, customers and landowners to build its own generation sources and storage facilities in Poland by 2030.

Which company is a beneficiary of the energy transformation in Poland?

The company is a beneficiary of the current and the planned energy transformation in Poland by 2050. ONDE holds an over 50% share in the wind farm construction market and a 10% share in construction of photovoltaic farms in Poland.
