Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

What is the best portable power station?

With a great power-to-weight ratio, the latest version of the Bluetti Elite 200 V2 is a great portable power station for powering a camper or providing backup power for the essentials. With its tremendous capacity, the EcoFlow Delta Pro 3 is truly capable of providing a whole-home backup without gas or solar panels.

How long does a portable power station last?

A portable power station's lifespan depends on the type of battery inside. Most new portable power stations, including all the models we recommend here, feature LiFePO4 battery technology, which lasts far longer than older lithium-ion technology. How much more?

LiFePO4 power stations will last for more than 3,000 charge cycles, or about 10 years.

Which battery is best for a portable power station?

These days most portable power stations, including all those we recommend here, use LiFePO4 batteries, which are capable of holding far more cycles, which is the number of times a battery goes through a complete discharge and recharge, than older lithium-ion batteries while also being less likely to combust.

What are load master TM series portable power distribution boxes?

Load Master TM Series portable power distribution boxes are the first in the industry to feature outputs with adjustable current ratings to match specific application loads. These temporary power distribution boxes feature 1, 3 or 4 adjustable circuit breakers, with a range of amperage and voltage ratings.
