# **Portugal s energy storage container**

## Overview

---

Does Portugal need energy storage?

From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production. To this end, the country's Ministry of Energy announced on Wednesday that it has allocated €99.75 million (\$107.6 million) in a bid to support 500 MW of energy storage projects.

How much will Portugal spend on energy storage & grid flexibility?

The Portuguese Ministry of Energy has allocated €99.75 million (\$107.6 million) for grid flexibility and energy storage projects which should be installed by the end of 2025. From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production.

Is there a CO2 storage opportunity in Portugal?

Storage opportunities in Portugal. Previous CCS (CO2 Capture and Storage) studies in Portugal, namely the FP7 COMET project (Boavida et al., 2013) and the nationally funded KTEJO project (Pereira et al., 2011), were responsible the first regional-scale assessments of CO2 storage opportunities in the country and defined the c
