

SolarTech Power Solutions

Power generation container house production plant

Overview

How many MWM containers have been installed worldwide?

270 containers with 245 MW el have already been installed worldwide. Complete MWM Container solutions: read about intelligent and complete turnkey systems for decentralized energy generation (combined heat and power plants – CHP). The components are configured to your individual needs.

What is a containerized power module?

Fueled by natural gas, the power module is dedicated to the production of electrical energy. Containerized power module with a power output of 3MW. Plymouth, UK. Flexible generation power plant to balance the local electricity network in an area with growing demand. 2 containerized power modules with a combined power of 5 MW. Yeovil, UK.

How has the power generation industry changed since 2004?

Since 2004 the Group's volume of production and sales, quantity of orders in power generation equipment have remained ranking first in the World, the power generation engineering industry has numbered among the top global groups, the full life-cycle service industry has started to make a figure, and the new energy industries are rapidly emerging.

What is a flexible generation power plant?

Plymouth, UK. Flexible generation power plant to balance the local electricity network in an area with growing demand. 2 containerized power modules with a combined power of 5 MW. Yeovil, UK. Flexible generation power plant to ensure fast response, secure and flexible generation to ensure grid resiliency.

Why is Shanghai Electric a leading power plant equipment supplier?

In response to the global climate change, Shanghai Electric as one of the world leading power plant equipment suppliers, has actively developed the

emerging industries such as solar power generation, seawater desalination, energy storage equipment, air cooled equipment, dust-cleaning apparatus, electric drive, etc.

Who is Shanghai Electric Power Generation Equipment Co Ltd?

(I) Enterprise Profile Shanghai Electric Power Generation Equipment Co Ltd Generator Plant is a joint venture established in December 1995 with Siemens. The enterprise is one of the largest and most advanced power generation equipment suppliers in the world. (ii) Personnel Profile
