Quality Container Energy Storage Special Offer

Overview

Are battery storage projects eligible for energy storage incentives?

The Program Manual [PDF] provides a full list of project eligibility and requirements. For battery storage systems above five MW of AC power, projects could be eligible for incentives through the Bulk Energy Storage Program. Additional details on both the Residential and Retail Energy Storage Incentive are available in the program manual [PDF].

How will state energy storage programs impact energy storage growth?

With nearly \$2B in approved incentives, the programs will stimulate expansive energy storage growth state-wide and further drive the State towards achieving its goal of 6 GW of energy storage deployed by 2030.

How are incentives provided for residential and retail energy storage projects?

Incentives for all residential and retail storage projects are provided through a network of participating contractors approved under the Residential and Retail Energy Storage Incentive program who contract directly with the customer. The program breaks out incentives geographically by sector and region in the Megawatt hour (MWh) Block Dashboards.

Where can I find information about energy storage incentives?

Incentive details will be available on the Residential Energy Storage Incentive Dashboard and Retail Energy Storage Incentive Dashboard. The Residential Energy Storage Incentives are available for contractors' installing storage on a new or existing home in New York State. Incentives are available for up to 25 kWh of storage capacity.

Does PSEG Long Island offer a residential energy storage incentive?

The Program Manual [PDF] provides a full list of project eligibility and requirements. Contractors installing residential energy storage in PSEG Long Island are eligible to apply for the Long Island Single-Family Residential

Storage Incentive which are governed through the NY-Sun Program Manual [PDF].

How do I apply for a retail energy storage incentive?

Contractors and Builders can apply for this program separately through the NYSERDA Portal . The Retail Energy Storage Incentives are available for new commercial scale distributed (retail) energy storage projects up to 5 megawatts (MW) that are either located behind a customer's electric meter or interconnected directly to the distribution network.
