Senegal Solar Cell Inverter

Overview

Is ten Merina a solar power project in Senegal?

This is Meridiam's second solar power project in Senegal, delivering an additional reliable supply of low-cost and low-carbon electricity. Overall, Ten Merina is a significant contributor to Senegal's installed solar PV capacity and is providing clean and affordable power to more than 200,000 Senegalese people.

Who owns Senelec power?

Tenergie, the initial developer of the project, signed a 25-year Power Purchase Agreement with Senelec at the end of December 2013. Meridiam partnered with Eiffage and joined the project as majority shareholder to finalize the development phase and raise the financing required for financial close.

Where is Senelec power project located?

The project is located near Mbouky, approximately 145 km from Dakar. Tenergie, the initial developer of the project, signed a 25-year Power Purchase Agreement with Senelec at the end of December 2013.
