Overview

Are solar innovations ® curtain wall frames custom built?

All Solar Innovations ® curtain wall frames are custom built to meet the exact dimensions of your opening. Solar Innovations ® offers eight standard frame finish colors and unfinished aluminum; custom finish options are available at an additional cost.

What is a solar curtain wall?

Commercial applications are most often designed, engineered, and installed by Solar as storefronts. The curtain wall can be utilized on virtually any type of business. A system can be added to the exterior of your building or utilized for interior divisions between departments or as office walls.

Are curtain wall systems a challenge?

It is a challenge to fit suitable ventilation or solar shading system to every type of project. Curtain wall systems are one of those new building trends, where standard solutions won't do. The challenge is to look for a solution using its urge for innovation and creativity.

What is PV IGU curtain wall system?

PV IGU Curtain Wall System manufacturing with double or tripple glazed units for BIPV solar facade integration.

Are curtain wall systems a new building trend?

Curtain wall systems are one of those new building trends, where standard solutions won't do. The challenge is to look for a solution using its urge for innovation and creativity. A driven 'Project team' focuses on projects like these, together with a large research & development division.

What are solar curtain walls made out of?

All curtain walls manufactured by Solar are constructed out of durable aluminum. The benefit of an aluminum curtain wall is the reduction in required maintenance. Aluminum curtain walls will not rot, rust, warp, expand with heat, or require constant finishing.
