Solar module prices lowered

**LPSB48V400H
48V or 51.2V**

Overview

After a brief period of stability, solar module prices are starting to fall once more, declining 5% to 8% across all technologies as of mid-July 2025, according to pvXchange. Will Price pressure increase as solar module prices fall?

As solar module prices continue to fall, pvXchange.com founder Martin Schachinger explains how price pressure could increase in the weeks and months to come. A growing number of PV module manufacturers are threatening to shut down their production facilities in Europe due to the ongoing low-price trend.

How much are Chinese solar modules worth?

Prices for Chinese solar modules have reached record lows, according to the latest data from OPIS. The benchmark assessment for TOPCon modules from China has fallen to \$0.100 per watt, a decline of \$0.005 per watt compared to the previous week. Similarly, Mono PERC module prices have also dropped by \$0.005 per watt, now standing at \$0.090 per watt.

How much do Topcon solar modules cost in China?

The current tradable indications for TOPCon modules are being reported at \$0.10 per watt Free-on-Board (FOB) China. As the market struggles with low demand, these new record low prices highlight the ongoing challenges faced by Chinese solar module makers.

How much does a photovoltaic emitter & rear cell cost?

The prices currently circulating in the photovoltaic market for passivated emitter and rear cell (PERC) products under 2 square meters up to 410 W are just under €0.10 (\$10.66)/W, so they were assigned to the “low-cost” price point this month. This is basically the reason for additional declines in the price index.

How much does Intersolar cost in China?

During Intersolar, market prices showed little movement, holding steady at around \$0.10 per watt Free-on-Board (FOB) China, with minor fluctuations of up to +/-0.3 cents. Observers noted that despite the onset of the high installation season, demand for utility-scale projects in Europe appears subdued this year.

When will BC module prices be added in Europe?

In Europe, the public pricing for BC modules (residential and C&I) will be added from June 2025. InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends and solar panel costs with our comprehensive market analysis.
