Somalia Hybrid Energy Storage Project

Overview

The project involves the design, supply, installation, testing, and commissioning of a 10 MW solar photovoltaic (PV) plant integrated with a 20 MWh battery energy storage system (BESS) and a 33 kV evacuation line. The hybrid system will be developed on a 290-hectare site.

The project involves the design, supply, installation, testing, and commissioning of a 10 MW solar photovoltaic (PV) plant integrated with a 20 MWh battery energy storage system (BESS) and a 33 kV evacuation line. The hybrid system will be developed on a 290-hectare site.

Somalia's Ministry of Energy and Water Resources has launched a significant tender for a large-scale hybrid solar and battery energy storage project in northeastern Somalia. The initiative, part of the Somali Electricity Sector Recovery Project, seeks to expand the nation's renewable energy.

The Somali government has kicked off a tender for the design, supply, installation, testing and commissioning of a 55 MW solar plant with a 160 MWh battery energy storage system (BESS) in Mogadishu. The deadline for applications is April 14, 2025. Somalia's Ministry of Energy and Water Resources.

The Ministry of Water Resources in Somalia has launched a tender for the development of a 10 MW hybrid solar-plus-storage plant as part of the Somali Electricity Sector Recovery Project. This project, which includes the design, supply, installation, testing, and commissioning of a 10 MW solar plant.
