South Sudan has taken a significant step toward renewable energy with the launch of its first large-scale solar power project. The Ezra Group, a prominent business conglomerate, has successfully developed and financed a 20-megawatt (MW) solar power plant, complemented by a 14-megawatt-hour (MWh).

As Tanzania hosts the African Energy Summit in Dar-es-Salaam, South Sudan is celebrating the country's first major renewable energy project. The South Sudan's solar power project reportedly marks a milestone in Juba's transition to sustainable power. The Ezra Group, a leading business conglomerate.

The Ezra Group has commissioned a 20MW solar power plant with a 14-Megawatt (MWh) Battery Energy Storage System (BESS) in South Sudan. The project was developed and financed in-house by Ezra Construction and Development Group Ltd., a subsidiary of the Ezra Group. The project is a significant step.

Ezra Group, a South Sudan family-run conglomerate, on Monday announced the launch of a 20-MW solar power plant with a 14-MWh battery energy

storage system in South Sudan, marking the country's first major renewable energy project. An official opening was held in Gondokoro, near the city of Juba.

Juba – South Sudan celebrates its first major renewable energy project, marking a milestone in its transition to sustainable power. The Ezra Group, a leading business conglomerate, announced the successful launch of the 20-Megawatt (MW) solar power plant and the 14-Megawatt (MWh) Battery Energy.
