

SolarTech Power Solutions

Southern European Industrial Energy Storage Cabinet System

Overview

This 100KW 215KWH C&I BESS cabinet adopts an integrated design, integrating battery cells, BMS, PCS, fire protection system, power distribution system, thermal management system, and energy management system into standardized outdoor cabinets, forming an integrated plug-and-play one-stop integrated product suitable for independent energy storage power stations, industrial and commercial user sides, microgrids and other application scenarios. Which energy storage systems are best for commercial & commercial facilities?

AlphaESS industrial and commercial energy storage systems can provide the one-stop C&I energy storage solution for commercial and industrial facilities. Our solar PV and battery storage solution help maximize energy independence and reduce grid power demand. Residential & commercial battery energy storage systems available.

What is an outdoor all-in-one ess cabinet?

The outdoor all-in-one ESS cabinet is equipped with a CATL LFP battery solution and offers safe energy storage and efficient management of power generation output. It features a double fire suppression system design and 1+1 redundancy design, further enhancing its safety and reliability.

What is epes233 energy storage cabinet?

EPES233 is a 100kW, 233kWh Outdoor Liquid Cooling Energy Storage Cabinet. It offers flexible expansion, long cycle life, and advanced safety features, including intelligent 24/7 cloud monitoring. Perfect for reliable and scalable energy storage in Europe. Interested in our products?

Let's connect. Send us an email to epenergy@ep-ep.com.

What is a commercial energy storage solution?

The commercial energy storage solution can be pre-installed in the factory for easy installation on site. Integrated BMS/EMS, it is very suitable for various

applications, along with effortless operation, cloud control.

What is China's Energy Storage Center?

Through strategic partnerships with the Chinese Academy of Sciences, Zhejiang University, and the University of Electronic Science and Technology of Chengdu, the center advances the development and application of cutting-edge energy storage technologies. The company operates advanced energy storage factories with a total capacity of 4GWh.
