

SolarTech Power Solutions

Swaziland 1 New Energy solar Site

Overview

Frazer Solar, an Australian-German company, has signed a definitive deal with the Government of Eswatini (Swaziland) for a 100MW solar battery project, which will be Africa's largest. Does Eswatini have a solar power plant?

The company currently has one solar plant, Lavumisa 10MW Solar PV Plant. The power plant, which tracks the sun from morning to sunset, generates a capacity of 13.75MW and contributes a guaranteed capacity of 10MW to EEC's power grid. There are several ongoing projects that are geared to improve Eswatini's citizens access to electricity.

How much power does Eswatini have?

The power plant, which tracks the sun from morning to sunset, generates a capacity of 13.75MW and contributes a guaranteed capacity of 10MW to EEC's power grid. There are several ongoing projects that are geared to improve Eswatini's citizens access to electricity. The current access rate stands at 82%.

Does Eswatini have access to electricity?

There are several ongoing projects that are geared to improve Eswatini's citizens access to electricity. The current access rate stands at 82%. Eswatini is ranked number 3 in the Southern African region on this measure.
