

## SolarTech Power Solutions

# Sweden exports microinverters

## Overview

---

Sweden's top exports in 2024, a searchable database of 100 major Swedish export products, biggest trade partners & leading Swedish trade companies.

Sweden's top exports in 2024, a searchable database of 100 major Swedish export products, biggest trade partners & leading Swedish trade companies.

A Scandinavian nation in Northern Europe surrounded by Norway to its west, Finland to its east and connected to Denmark via a tunnel that connects its southwest to Denmark, the Kingdom of Sweden shipped US\$195.8 billion worth of exported products around the globe in 2024. That dollar amount results.

The statistics cover Sweden's foreign trade in goods broken down by country and type of goods classification. The combined nomenclature (CN) provides the most detailed level, with 9 400 goods groups. SITC and SPIN refer to more general goods classification. From 2025 onwards, a new threshold.

Market Forecast By Offering (Hardware, Software & Services), By Communication Technology (Wired, Wireless), By Type (Single Phase, Three Phase), By Power Rating (Below 250 W, Between 250 W and 500 W, Above 500 W), By Connection Type (Stand-alone, Grid-tied), By Sales Channel (Direct, Indirect), By.

A Microinverter or a Solar micro-inverter is an extremely small device used to convert DC to AC. These inverters are so small that they are used as plug-and-play. Microinverters work remotely with every panel. This is advantageous in case of panel failure or power surge. These inverters work on.

Enphase Energy, Inc. (NASDAQ: ENPH), a global energy technology company and the world's leading supplier of microinverter-based solar and battery systems, is expanding its footprint in Europe. The company recently announced its entry into the solar markets of Sweden and Denmark through an expanded.

Sweden's total Exports in 2024 were valued at US\$195.76 Billion, according to

the United Nations COMTRADE database on international trade. Sweden's main export partners were: Germany, Norway and the United States. The top three export commodities were: Machinery, nuclear reactors, boilers; Vehicles. What exports did Sweden export in 2024?

Sweden's main export partners were: Germany, Norway and the United States. The top three export commodities were: Machinery, nuclear reactors, boilers; Vehicles other than railway, tramway and Electrical, electronic equipment. Total Imports were valued at US\$188.97 Billion. In 2024, Sweden had a trade surplus of US\$6.79 Billion.

Which countries are boosting the demand for micro inverters?

Canada and Mexico, adopting similar safety codes, are expected to boost regional demand further. Asia-Pacific is the fastest-growing territory at 19.5% CAGR, propelled by India's commercial-rooftop boom where micro inverters capture 75% of new C&I projects.

How big is the micro inverter market?

Image © Mordor Intelligence. Reuse requires attribution under CC BY 4.0. The micro inverter market size stands at USD 4.17 billion in 2025 and is forecast to expand to USD 10.21 billion by 2030, representing an 18.23% CAGR over the period.

What is a micro inverter?

Micro inverters provide individual MPPT, unlocking the full bifacial yield profile and preventing one shaded panel from curtailing an entire string. Leading vendors now market 600 W micro inverters with 97% CEC-weighted efficiency, ensuring conversion losses stay below the incremental energy gain.

What is the market share of micro inverters in 2024?

By phase configuration, single-phase systems led with 72% of micro inverter market share in 2024, whereas three-phase platforms are projected to register the fastest 19.1% CAGR through 2030. By communication technology, wired solutions held 91% revenue share in 2024; wireless platforms are poised for a 20.4% CAGR to 2030.

Which column shows Sweden's exports/imports?

Column (I): Shows Sweden's exports/imports of the product to/from the

country/region as a percentage of Sweden's total exports/imports of that product to all countries for the latest full year. The fact sheets only include the most relevant product groups. This means you cannot add up rows to calculate Sweden's total trade with a specific country.
