Tanzania Electric Supply Co. Ltd. (Tanesco) is seeking engineering, procurement and construction (EPC) contractors for a 100 MW PV facility to be built in the country's Shinyanga Region. Tanzanian utility Tanesco has launched a tender to select EPC contractors for a 100 MW solar project to be built.

Tanzania has entered into an agreement to construct the country's first-ever solar photovoltaic power station to feed into the national electricity grid. The contract was signed on 29th May 2023, in Dodoma by the Tanzania Electricity Corporation (TANESCO), in the presence of the Minister of.

In a major step toward renewable energy, Tanzania has officially launched a tender for a 100 MW solar photovoltaic (PV) plant in the Shinyanga region. This ambitious project is a key part of the government's broader strategy to diversify the nation's energy mix and expand its solar power capacity.

At Greenlink-ReGen, we specialize in large scale solar energy services in Tanzania & Zanzibar, delivering high-performance, tailor-made systems for commercial and industrial applications, like lodges, islands, factories, hospitals and offices. From our offices in Arusha and Zanzibar, we bring.

A sun-soaked city in Tanzania where solar panels glint like disco balls but can't store their groove after sunset. Enter the Dodoma Battery Energy Storage project - the "power bank" saving the dance party. This initiative isn't just about batteries; it's rewriting how East Africa tackles energy.
