You must apply for a permit with local authorities to install a solar electric system at your home. There are only a handful of components needed to run a solar electric system. Solar electric systems can cost anywhere from THB100,000 to THB400,000, on average. Why Convert to a Solar Electric System in Thailand?

.

Can you install a solar electric system in Thailand?

Because of all the sunlight in Thailand, solar electric systems can supply as much power as you need. Solar electric systems are expensive up front but pay for themselves later on. You must apply for a permit with local authorities to install a solar electric system at your home.

Where to buy solar panels in Thailand?

Kaset Por Peang: Kaset Por Peang is a smaller solar electric system equipment supply house in Bangkok, but the owner is very helpful and knowledgeable. Plus they have a solar electric system installation team. SCG: SCG is one of the biggest construction companies in Thailand and has several solar system packages.

Who is Thai solar power?

Thai Solar Power is a top solar panel contractor in Thailand, known for neat, safe, and reliable installations. We specialize in design and engineering, have a strong track record of successful projects, and provide long warranties for both work and components. Our solutions are cost-effective and use only high-quality parts.

How do solar panels work in Thailand?

Solar charge controllers: Solar charge controllers take the electricity coming from the solar panels and turn it into a steady, usable voltage — 220 volts in Thailand's case. **Batteries:** In off-grid and hybrid solar systems, you'll need batteries to store the power that your solar panels generate and you don't use.

Should you buy a solar system in Thailand?

Sunlight is everywhere: Thailand, even during the rainy season, is mostly sunny. This means you'll never have issues running your appliances or topping off your batteries. **Power your electric vehicle:** If you own an electric motorbike, you can charge it at basically no cost once you have your solar system installed.
