The price advantage of China Communications 5G base station solution

Overview

How many 5G base stations will China build in 2025?

China plans to construct over 4.5 million 5G base stations in 2025 while introducing additional policy and financial incentives to support industries expected to shape the next decade, the country's Ministry of Industry and Information Technology (MIIT) announced during its annual work conference.

How many 5G base stations does China Mobile have?

At the end of 2022, China Mobile had 1.3 million 5G base stations, 805,000 of which were mid-band, with plans to add another 360,000 base stations by the end of 2023. In short, CMCC is the most important buyer of base station equipment in the world.

Who is the most important buyer of 5G base station equipment?

In short, CMCC is the most important buyer of base station equipment in the world. It is therefore highly significant that in its latest round of tenders for 5G base station equipment in the 2.6 GHz frequency range, China Mobile decided to award 16.33% of the order volume to Ericsson (Sweden) and 10.28% to Nokia (Finland).

How much does CMCC spend on 5G in 2023?

CMCC has the world's largest mobile network and in 2023, capital expenditures for its 5G network are estimated to be approximately RMB83.0 billion (\$11.6 billion USD, €1.4 billion). At the end of 2022, China Mobile had 1.3 million 5G base stations, 805,000 of which were mid-band, with plans to add another 360,000 base stations by the end of 2023.

Does China have 5G?

Advanced State of 5G in China: Ericsson's June 2023 Mobility Report notes that China's base stations include "mid-band Massive MIMO in 2.6 GHz and 3.5 GHz, FDD 700 MHz and 2.1 GHz for national coverage, and plenty of dedicated

5G indoor sites.

Will 5G Revolution & 6G innovation be a priority next year?

The move comes as the country charted its vision for industrial growth during a two-day work conference of the Ministry of Industry and Information Technology. With 4.19 million 5G base stations already in operation, the industry regulator said that "promoting 5G revolution and 6G innovation will be one of the priorities" next year.
