Türkiye battery energy storage northwest solar wind

Overview

Can Türkiye become a battery hub of the region?

EDEDER will host the Energy and Storage Future Congress in Ankara on Dec. 24 under the theme “Battery Hub of the Region: Türkiye.” “We believe Türkiye can become a regional hub for battery technology, and our government is committed to making this a reality,” Tokcan said.

How big is Türkiye's energy storage capacity?

Türkiye’s 35 GWh storage capacity accounts for grid-scale projects alone. Global energy storage investments have surpassed 150 GWh. Türkiye has already begun installations in Hungary, Bulgaria, and Spain, leveraging its geographic advantage close to Europe.

Where does Türkiye invest in energy storage?

Global energy storage investments have surpassed 150 GWh. Türkiye has already begun installations in Hungary, Bulgaria, and Spain, leveraging its geographic advantage close to Europe. Tokcan highlighted the importance of local expertise in manufacturing, system management, and maintenance to avoid dependency on foreign firms.
