## Overview

---

SAN FRANCISCO, CA, UNITED STATES, August 7, 2025 / EINPresswire.com / — The Government of Uganda has officially issued a Gazetted Policy Direction authorizing the development of a 100 megawatt-peak (MWp) solar photovoltaic (PV) power plant integrated with 250 megawatt-hours (MWh) of.

SAN FRANCISCO, CA, UNITED STATES, August 7, 2025 / EINPresswire.com / — The Government of Uganda has officially issued a Gazetted Policy Direction authorizing the development of a 100 megawatt-peak (MWp) solar photovoltaic (PV) power plant integrated with 250 megawatt-hours (MWh) of.

The Government of Uganda has authorized the development of a 100 MWp solar PV and 250 MWh battery storage project. A major solar-plus-storage has been approved by the Government of Uganda, with the project set for Kapeeka Sub-County, Nakaseke District, approximately 62 kilometers northwest of.

In a major step toward transforming its energy sector, the Government of Uganda has approved the development of a 100-megawatt (MW) solar photovoltaic power plant coupled with a 250 megawatt-hour (MWh) battery energy storage system. The facility, to be built in Kapeeka, marks the first phase of.

SAN FRANCISCO, CA, UNITED STATES, August 7, 2025 / EINPresswire.com / — The Government of Uganda has officially issued a Gazetted Policy Direction authorizing the development of a 100 megawatt-peak (MWp) solar photovoltaic (PV) power plant integrated with 250 megawatt-hours (MWh) of battery energy.

The Government of Uganda authorised the construction of a 100 MW solar photovoltaic plant with a 250 MWh battery energy storage system in Kapeeka. The facility will be developed by U.S.-based Energy America, with its East Africa subsidiary, EA Astrovolt, serving as lead project developer and.

The government directive marks the start of Phase I in a national programme to deploy more than 1GW of solar-plus-storage capacity The Government of

Uganda has issued a Gazetted Policy Direction authorising the development of a 100-megawatt-peak (MWp) solar PV plant with 250 megawatt-hours (MWh) of.

Uganda has approved a major 100 MW solar project featuring a 250 MWh battery storage system. This ambitious initiative is designed to bolster grid stability and accelerate the country's transition to renewable energy. The large-scale battery storage is crucial for addressing the intermittent nature.
