Ukraine Zhongna Energy Storage New Energy Technology

Overview

Why is Ukraine investing €140 million in energy storage?

The €140 million total investment aims to enhance power grid stability, bolstering Ukraine's energy security and independence. The project will be the biggest operational energy storage portfolio in Eastern Europe at the time of commissioning.

Will Russia attack Ukraine's energy facilities?

"This system is bringing more resilience to the energy system," DTEK 's CEO Maxim Timchenko said at a press briefing on Sept. 10, later adding that he anticipates Russia will resume heavy attacks on Ukraine's energy facilities. Initially, a press tour was arranged at one of the battery sites in Kyiv Oblast on Sept. 10.

How long does it take to build a thermal power plant in Ukraine?

Constructions of this size normally take 12-15 months, but DTEK noted Ukraine's urgency for the project to commence before the autumn-winter season. The country is bracing for another wave of Russian attacks, with a recent strike on a thermal power plant in Kyiv Oblast cutting off electricity to part of the region on Sept. 8.
