Universal intelligent inverter high power

Overview

Dual voltage universal intelligent inverter, high compatibility and no interference Parameter: Peak Power:4000W/5000W Rated power 2000W/2500W Size:32*15*7cm Weight:2.2KG Input voltage: 12V and 24V universal models / 48V and 60V universal models Output Voltage: 220V±5% Output waveform:.

Dual voltage universal intelligent inverter, high compatibility and no interference Parameter: Peak Power:4000W/5000W Rated power 2000W/2500W Size:32*15*7cm Weight:2.2KG Input voltage: 12V and 24V universal models / 48V and 60V universal models Output Voltage: 220V±5% Output waveform:.

One-key switch, faster response circuit protection to prevent power loss. Aluminum-magnesium alloy shell, safe and durable without leakage We are involved in all precision intelligent machines for commercial, industrial and household use. We can manufacture whatever you need! We have absolutely.

Ideal for outdoor recreation, mobile entertainment and job sites, the Duracell 800-Watt Inverter supplies plenty of household power for your everyday needs. Supplying up to 1600-Watt of peak power and 800-Watt of continuous output, the inverter converts vehicle DC power into household AC and USB.

Pure sine wave inverter adopts an aluminum alloy shell to resist heat, cold, and corrosion. LCD screen and LED indicators are convenient for users to master the power inverter working promptly. High-quality pure copper inductances filter the waveform and lower the idle power draw, ensure the true.

Pure Sine Wave: The pure sine wave inverter converts 12V DC to AC domestic power. It has a continuous 500 watt output (3000 watt surge capacity). In addition, it is equipped with 1 AC socket, an LED voltage display, 2 USB ports for high current DC and two LED working lights. Robust: The car.

Here we provide a series of high power inverters designed for demanding applications, featuring 2000W-4000W output power, peak power up to

4000W-8000W, and stable output for 24 hours. Characterized by powerful power output, high efficiency conversion, multiple safety protection, and intelligent.

The Inverter Smart is an efficient and reliable inverter. Built on our proven and field tested inverter platform, it now comes with a new slimmer design and full metal casing. Models are available in 1600VA, 2000VA, 3000VA and 5000VA for 12, 24 or 48V systems. It's powerful enough to supply most.
