

## SolarTech Power Solutions

# Vietnam centralized solar energy storage enterprise

**Efficient  
Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPP Trackers, 150% DC Input Oversizing
- Max. PV Input Current 16A, Compatible with High Power Modules

**Intelligent  
Simple O&M**

- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

**Flexible  
Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc-fault is detected the inverter immediately stops operation

## Overview

---

VinEnergó's rollout at VinFast, the VinES battery pack and energy storage plant, and the battery manufacturing plant of V-G High-Tech Energy Solutions Co., Ltd will also be the first in the country to combine rooftop solar and BESS under a direct power purchase agreement (DPPA) model.

VinEnergó's rollout at VinFast, the VinES battery pack and energy storage plant, and the battery manufacturing plant of V-G High-Tech Energy Solutions Co., Ltd will also be the first in the country to combine rooftop solar and BESS under a direct power purchase agreement (DPPA) model.

VinEnergó Energy Joint Stock Company has announced plans to install 43 megawatts of rooftop solar power and 45 megawatt-hours of battery storage across three Vingroup manufacturing plants in Ha Tinh province. The ambitious project enters a market where Vietnam's rapid renewable expansion has.

With solar capacity skyrocketing from a mere 4 MW in 2015 to an impressive 16-18 GW today, the country is not just harnessing the sun—it's storing it for a sustainable tomorrow. Centralized photovoltaic (PV) projects paired with energy storage systems (like battery energy storage, or BESS) are at.

Vietnam's direct power purchase agreement (DPPA) framework is gaining momentum, with green energy projects increasingly taking shape under the model. VinEnergó, the energy subsidiary of Vingroup, is set to supply solar and storage systems to the group's electric vehicle and battery factories.

VinEnergó Energy Joint Stock Company has signed MoUs to install rooftop solar power systems integrated with battery energy storage systems (BESS) with the VinFast automobile plant and two battery factories in the central province of Ha Tinh. Delegates at the launch ceremony of solar power and.

Ho Chi Minh City, 09 May 2023 – AMI AC Renewables, through its subsidiary, AMI Khanh Hoa, signed a memorandum of understanding with Honeywell to collaborate on a 7.5 MWh battery energy storage system (BESS) pilot project in Khanh Hoa, Vietnam. Co-funded by a grant from U.S. Mission Vietnam, the.
