

## SolarTech Power Solutions

# What are the procurement requirements for energy storage projects

## Overview

---

This chapter supports procurement of energy storage systems (ESS) and services, primarily through the development of procurement documents such as Requests for Proposal (RFPs), Power Purchase Agreements (PPAs), and term sheets.

This chapter supports procurement of energy storage systems (ESS) and services, primarily through the development of procurement documents such as Requests for Proposal (RFPs), Power Purchase Agreements (PPAs), and term sheets.

chapter offers procurement information for projects that include an energy storage component. The material provides guidance for different ownership models including lease, Power Purchase Agreement (PPA), or Owner Build and Operated (OBO). It also includes contracting strategies for OBO projects.

Provides federal agencies with a standard set of tasks, questions, and reference points to assist in the early stages of battery energy storage systems (BESS) project development. Checklist provides federal agencies with a standard set of tasks, questions, and reference points to assist in the.

New York State continues to advance its bulk energy storage deployment efforts, and a final Bulk Storage Implementation Plan is now likely to be made public before the end of April—with procurements set to begin by June 30, 2025. On Friday, March 21, the Public Service Commission (“PSC”) approved.
